939400	000101 and up	Sno-Tek 22 Recoil

Ariens Company is pleased to announce the Sno-Tek™ line of snow throwers. Powered by Liquid Combustion Technology (LCT) engines, these machines complement our existing Compact, Deluxe and Professional Sno-Thro® models, and they offer dealers an exciting opportunity to extend their customer base.

To ensure that our customers receive the highest level of service and satisfaction, Stens will be administering warranty claims and service support for LCT engines. Dealers who sell and service Sno-Tek units will need to become a Stens dealer and an Authorized LCT Service Center before they can perform warranty repairs on LCT engines.

All warranty claims for LCT engines must be filed online through Stens at www.stens.com.

Warranty claims not related to the engine will continue to be made with Ariens Company through the Ariens Dealer ExtraNet, dealers.ariens.com.

Tecumseh, Briggs and Stratton and Subaru engine warranty claims must be made through those manufacturers.

To learn more about becoming a Stens dealer or an Authorized LCT Service Center, contact the Stens Customer Service department.
