915116	Gravelly ZT	0 – 999,999	71509400

Due to limited supplier availability, Ariens Company has discontinued headlight p/n 01588200 and replaced it with headlight p/n 04815800. Headlight kits for Ariens Zoom, Zoom XL and Gravelly ZT and ZT XL models will now include the updated headlight and light mounting bracket.

Due to mounting bracket differences between the original and updated headlight, individual headlight replacements on units equipped with headlight p/n 01588200 require installation of a headlight kit. Refer to the table above to determine the correct kit for the unit receiving a headlight replacement or installation.

To replace headlights on models 915321 and 915326 above serial number 40,000, dealers are to order headlight p/n 04815800. Headlight replacements on these units do not require a kit.

For additional information, please contact Ariens Technical Service at 920-756-4688.
